

## Mica Replacement Panels

### Mica Shade Replacement Panels

NO IMAGE  
AVAILABLE

**Product No.: Mica-Panel**

**Price: \$6.00**

**Mica Color:**

#### DESCRIPTION

Occasionally, the mica panels we install in our lights don't survive extreme weather events and need to be replaced. This product provides a way to order these panels. Each panel is sprayed with a exterior clear lacquer and they usually last many years.

To order, please select the size and color you need. The size is specific to the lighting series, e.g., a Smoky Mountain Large sconce is a M536 series. If you don't know what size fixture you have, give us an email and we can look up your order.
